

NEW PREMIUM HWS!!

QUANTUM

PREMIUM ELECTRIC STORAGE WATER HEATERS

Electric Storage Water Heaters have long been a staple inclusion in the Australian family home.

Whilst new and alternative technologies are available to reduce energy costs, environmental impacts, and carbon omissions; we understand that in some instances these products may not be suitable.

That's why we've developed the new **Quantum 4Q Premium Series** Electric Storage Water Heater range.

With new features and styling that will outshine your existing Electric Storage Water Heater; our new range is sure to impress....

Stylish German Aluminium Finish

We choose the best finishes for all aspects of our homes; why should our hot water system be any different? Quantum have sourced world class external finishing materials from Germany, with a primary focus on strength, aesthetics and style — to compliment the rest of your homes' appliances.

Incoloy® Heating Element

Incoloy® is a "Superalloy" designed for excellent corrosive resistance, in addition to superior strength at high temperatures. It is a more advanced material than that which is found in other traditional electric water heaters (copper). Our new Incoloy® Element will deliver your hot water, for an extended lifetime, being less susceptible to corrosion.

- **Complete Product Range 25L - 400L**
- **Stylish Brushed Aluminium Finish**
- **Durable Incoloy Heating Element**
- **Dual Handed Across The Range**
- **7 Year Cylinder Warranty**
